

# SOUTH CAMPUS INFRASTRUCTURE

A monthly update on the local impacts of the SCI project

VOL. 2, ISSUE 6

07/25/2024

## Construction Update

Summer construction is coming to an end which will return many areas back to campus use. This includes, Mansfield Road, Gilbert Road, Whitney Road Ext, Maple Lane, Coventry Road and Lot R. Final paving is scheduled to take place the week of August 5th with Gilbert Road opening on August 15th.

The geothermal well fields are ongoing and are close to being done with all drilling with piping remaining. The foundation for the building addition is complete allowing for following phases of work to start. Utility work continues

around the building. Portions of Lot S will reopen that will allow for 2/3rd of the parking lot to be used by the campus.

## Road Impacts

Construction impacts going into the Fall semester are as follows.

- Gilbert Road **OPEN** from Mansfield Road to Whitney Road Extension. This closure will stay in place through the Summer 2024
- Mansfield Road will be **OPEN** from Coventry Road to Whitney Road. This closure will be from June 10, 2024 to August 2024.
- Whitney Road Ext will return to one way from Gilbert to Whitney Road.

Road closures and detours will be clearly signed and communicated to the University and the public to minimize confusion. Please refer to the [Campus Construction Map](#) for more information on Road closures and impacts

## Parking Impacts

Parking impacts to Lot R and Lot S will continue as noted below.

- Lot R will have a short term closure August 5th to allow for final paving and line striping will take place on August 12th.
- Lot S will continue to have parking impacts through the duration of the project. 2/3rds of the lot will open in the middle of August.

UPDC is working closely with the contractors to minimize the impacts to permit holders to the greatest extent possible. All contractors associated with this project have been asked to park at Depot Campus or within the construction fence.

## Pedestrian Circulation Impacts

Impacts to pedestrian traffic continue around the construction site and limited impacts around Gilbert Road. Refer to attached map showing pedestrian detours. Sidewalk closures and detours will be clearly signed and communicated to the University and the public to minimize confusion and create safe passage Please refer to the [Campus Construction Map](#) for more information on pedestrian impacts

## Noise and Working Times

Core working hours for the Fall Semester will be Monday to Friday from 8:00 am to 5:00 pm. There may be situations when work may happen outside of these hours with appropriate notification.

At this time there are no known shutdowns planned.

At this time the project is also encountering a large amount of rock that requires rock hammering. This work will only take place when needed.

Any Questions or Concerns please reach out to:
